A particular attention has been drawn to the decoration. Some “lighting carpets” and LED lights hanging from the ceilings or from the walls delimit the different spaces within the property by providing a distinct ambience in each one of them. The sectorisation of the air conditioning and the optimisation of the light system have been thought of keeping the occupants’ comfort to its maximum and for low energy consumption. The conduct system giving the sensation of being a spine is visible all through the property.

This **furnished loft for rent in Eixample** is probably one of the trendiest, most unique and most elaborate dwelling you could find in the Catalan capital; therefore do not wait for too long to contact us and arrange a visit.
